

PRESS RELEASE - Munich, 18.12.2017

PRÜFER & PARTNER mbB
Patent Attorneys • Attorneys-at-Law

The Patent Attorneys and Attorneys-at-Law PRÜFER & PARTNER continue to grow with a second location in Munich - the litigation practice area of the IP law Firm will be bundled there.

Nowhere less than in the historically important Palais Lenbach the new subsidiary of PRÜFER & PARTNER has opened. In 2017, the IP law firm once again experienced a tremendous burst of growth of nearly 15%, following the addition of further 6 Patent attorneys, 2 Attorneys-at-Law and 2 Patent professionals, so that the IP law Firm now has more than 100 employees.

The new office operates in the Ottostrasse 4-8 and is not coincidentally across from the Regional and Higher Regional court in Munich. Rather, it should be signalled by the court-related location of the office that PRÜFER & PARTNER continuously pushes its focus on the litigation business.

"Our biggest concern was to offer our clients the best possible support in all areas. Because of that, it seemed natural to give our clients a further advantage by being geographically close to the courts and, in addition, to save a significant amount of time while enforcing their legal interests." At the already existing Munich location in Sohnckestrasse 12, we once again have room to continue our unhindered growth in the Prosecution area in order to be able to provide even more comprehensive advice to our existing and future clients. " explains Managing Partner and Patent attorney Jürgen Feldmeier from PRÜFER & PARTNER.

"The merger of our team for all court-related matters at the new location underlines, on the one side, our competence in the litigation area and, on the other side, is also a signal for the increasing demands of these services by our clients.", says Friedrich Emmerling, also Managing Partner and Patent attorney of the IP law firm.

"The fact that the continuous demand for our services leads to such growth is a clear proof of the satisfaction of our clients with our performance and, at the same time, is understood by us as a mission to continue to guarantee the highest standards of counsel. As a mixed patent firm and law firm, we are particularly proud to have built such a strong litigation branch." concluded Attorney-at-Law and Managing Partner of the IP law firm Andreas Jacob.

PRÜFER & PARTNER is a law firm specialized in Intellectual Property and offers comprehensive IP protection from a single source through the combination of Patent attorneys and Attorneys-at-Law under one IP law firm.
